Nottingham City Homes achieves 300th apprentice milestone

In last month's Round the Houses we promised we'd discover more about NCH newest recruits – a brand new 30 strong group of apprentices.

This now means that over the past decade we have taken more than 300 apprentices! Our latest batch of bright apprentices have joined NCH in a variety of roles including plumbing, joinery, business administration and for the first time, IT.

"I was really pleased when I heard back that I'd been successful. I want to make sure I have a skilled trade to build a career on and I know I can do that now." – Tramayne Howell

"It's just something I've always wanted to do. I came along to a couple of the Women in Construction taster days earlier in the year and knew straight away that I wanted to work here and as soon as the apprenticeship opportunities were available I applied" – Hayleigh Donovan

"I'm enjoying getting stuck in" – Matt Chilton

“Life’s been better – being able to do things with kids. Good for them to see dad in work, like everyone else’s dad”

Summary

- Apprenticeships
- Traineeships
- Work experience
- Women in construction
- Tenant academy
