

Barcode Scanners & Exhibitor Badges

Barcode Scanner / Visitor Data Capture

Livebuzz are the contractor handling visitor registration, offer a barcode scanner / visitor data capture service.

- Scanners or apps for accurate and simple data capture on your stand.
- A simple, easy to use, handheld barcode scanner for use throughout the event or a downloadable app for iPhone or Android.
- The option to download your data at the end of each day so your office can start work on your leads before the show ends to get a head start on your competitors.
- Onsite training and guidance from one of our members of staff.

Exhibitors will be able to order scanners directly from their Livebuzz exhibitor zone. Usernames and log-in will be sent in due course.

Exhibitor Badges

Once again we will be capping the amount of exhibitor passes each company is allowed depending on the size of your stand as follows:

12sqm and below	5 passes
30sqm and below	10 passes
Over 30sqm	15 passes

A website link will be sent to you in due course so that you are able to register for these badges.

If any members of your company, who are not working on the stand, wish to attend the exhibition they will be able to register themselves using your **Exhibitor Guest Invite**.

If you have any enquiries regarding exhibitor passes please contact Lucy Leech, Email:
